MIGHTY VOTE OF NEW YORK

BRYANITES FIND ONLY COLD COM-FORT IN THE REGISTRY.

"Vote Early" Will Be the Republican Warery From Now On to Tals City Because the Registered Vote Has So Far Over!eaped What Was Prepared For-Up-the-State Figures.

The Republican campaign managers said yesterday that the large increase in the number of voters registered this year over 1896 meant that all the men who were opposed to Bryanism were coming out. The figures for Manhattan and The Bronx which were printed in THE SUN of yesterday spoke for themselves. The heaviest gain was in the Thirty-fifth district, which is usually Democratic, but the Republican campaigners said that a good part of this was anti-Bryan and that most of it was due to the natural growth of the city. The Republicans are all thoroughly satisfied with the registry. They say that the gain in the close Twenty-third district is largely Republican and they believe they can transfer this district to the Republican column. The losses in the downtown districts are all Democratic, and, according to the Republicans, the falling off in the registration in the Second, Eighth and certain other districts indicates that the influences which have been at work to prevent colonization of which the public has not been informed yet have been effective. The Republican managers have taken steps to prevent the casting of fraudulent votes which they are convinced will prove more effective than any plan that has been followed heretofore, and there is no question in the minds of the Republican campaigners, from Senator Platt and Chairman Odell down, that there will be less effective colonization this year than there has

been for years past-Fearing that the congestion at the polling Fearing that the congestion at the polling places due to the enormous registration of 869,973 in Manhattan and The Bronx may lead to loss of votes, the Republican leaders of the Twenty-first, Thirty-first, Twenty-third and Thirty-fifth districts are going to call on Chairman Odell of the State Committee and President Greene of the County Committee and ask their help to straighten matters out Col. Abrabam held both under ban for due to factor who said he lived in a lodging house at 460 Pearl street, was arrested on Sate was a straighten district of the Second Assembly district. It was charged that he did not have at the address he gave, but when Noon was arraigned in the Centre street police court that Noon had lived there for over four years under the name of Newman. Whether this can be done under the law is a question.

a larger number of election districts. Whether this can be done under the law is a question. Anyhow, the big registration will induce wise men to get out early and vote in the morning, and thus avoid running any chance of being shut out in the afternoon. From how on the Republican campaigners will din into the voters' ears the phrase, "Vote early."

The campaigners mayred out yesterday that the vote in Manhattan and The Bronx on the registration ought to be about \$45,000, of which 15,000 will be "miscelianeous." If Mr. Croker is going to make good his promise to the Democratic National Committee to give a plurality of \$0,000 for Bryan below the Bronx he will, admittedly, be obliged to make up all of it in Manhattan and The Bronx, and this means that Tammany must cast about 260,000 votes, against 135,024 four years ago and 173,476 in 1808. The Republican managers rather guess not.

The enrollment of 250,450 voters in Brooklyn, which is 23,129 in excess of the figures in the last Presidential election, surprises both Republican and Democratic managers. To the former the surprise was most gratifying and to the latter decreasing. That the Republican forces are lined up in as solid columns for McKinley and Roosevelt as for McKinley and Hobart in 1806 is abundantly demonstrated by a study of the registration. In 1806 the Republicans carried twent-four of the thirty-two wards, and it is in these wards that 21,522 in the old the laving only an increase of rigid in the eight Democratic wards of 1893. In these Republicans wards there are 425 election districts, so that the average increase per district in the registration this year is 50.65, while there are ninety-three election districts in the eight Democratic wards and they show an average increase of only 17.24. In 1896 the Republicans carried fourteen Assembly districts for their Assembly candidates and the Democratic seven. REGISTRATION CASES IN COURT.

Tammany Discovery of a Mare's Nest in de Ate—Would Be Voters Who Made Mistakes.

A crowd of Tammany Hall politicians of "de Ate" district headed by Isidor Cohn, the Democratic candidate for Assemblyman, tried unsuccessfully in the Essex Market police court yesterday to induce Magistrate Hogan to issue a warrant for the arrest of Lawyer.

The Republicans of the Nineteenth district have a lively programme for this week. This evening the Bidwell Rough Riders, Col. Fred the Bidwell Rough to issue a warrant for the arrest of Lawyer Leonard A. Snitkin, a Republican of the district, on a charge of aiding and abetting illegal registration. On Saturday night Levy Kantrowitz registered in the Sixth Election district of the registered in the

Several members of the Martin Engel Association who were around protecting the purity of the ballot box, at once suspected a Republican plot to colonize "de Ate." They followed Kantrowitz to 25 Pike street, where he went to bed. Then they notified Capt. Herlihy of the Eldridge street station and Detective Grimshaw arrested Kantrowitz. When the latter was arraigned yesterday in the Essex Market police court he declared that he was only 18% years old and had been advised to register by Snitkin and by Dr. Lazarus of 24 Eldridge street, who is one of Supt. McCullagh's deputies.

"An outrageous case," declared Candidate Cohn, "These two men induced this man to vote, knowing that he was under age. We want a warrant for Snitkin's arrest. We have a crowd of witnesses who will swear that they

We have a crowd of witnesses who will swear that they heard Snitkin offer the advice," and he pot ted to a crowd of members of the Martin Engel Association, who were sitting on the front benches. The Magistrate shook his head. They pleaded with him, but he was firm.

Former Assistant District Attorney Rosalsky then declared that if there was any charge against Snitkin he would produce Snitkin when he was wanted The Engelitee held an indignation meeting in front of Martin Engel's office in Essex street. Yesterday afternoon Lawyer Snitkin went to the Edridge street police station and offered him-eli for arrest. He was taken at his word. Last night Dr. Lazarus fo loved Snitkin's example. Magistrate Pool went to the police's a found and bailed both men out, a cepting \$1,000 in each case.

The Republican campaigners in New York ounty believe that they will be able to elect four of their candidates for Congress this fall. The election of William H. MORE WORKINGMEN FOR M'KINLEY Delegate Cooke Says the People's Patriotism Wont Let Them Swallow Bryan.

The signs of a change in the sentiments of a large number of workingmen who voted for Bryan in 1896 continued to multiply yesterday. Party politics is supposed to be a forbidden subject at meetings of labor unions, but some of the Central Labor Union delegates are not averse to talking on the subject outside of the meetings. J. F. MILITARISM HAS NO TERRORS. Bryan's Warery Carries Little Weight With

Voters of Northwestern States. CHICAGO, Ill., Oct. 21.-Families will not rote for Bryan and the doctrines of the Kansas City Convention. The Goebel law in Kentucky Fourteenth Already Deemed Secure-Goodman has stirred particularly the young men of the middle Western States. That law is described as Bryanite imperialism. It has been pointed out to the young voters that Mr. Bryan talks grandiloquently for the "consent of the governe'l" in Luzon. Yet his supporters violently trample i on the governed in Kentucky, and give countenance to their crimes. Mr. Bryan weeps because Malay assassins are not white men of Kentucky of their liberty and

yet Mr. Bryan assents reacily to the infamous Carolina and North Carolina, where Mr. Bryan's party has robbed so many of their citizenship without their consent, is there to be found vote is east early on election day, and this example is being followed generally in the Conupon freedom as in Kentucky. For in denying a free ballet and a fair count to the white men of Kentucky Mr. Bryan's party has destroyed the very altar of republican liberty in that State. And Mr. Bryan applauds and hepes to profit by these atrocious acts of despotism. No, the young voters will not follow Bryan, and for that matter neither will thousands of older Democrats. You should have heard the comments over Bryan's conduct in Michigan When Bryan was speaking at Ann Arbor, the college town, on Oct. 11, some one in the audience called out: "How about free silver?" and he replied as follows:

"We are in favor of the free coinage of silver at the ratio of 16 to 1 without waiting for the aid or consent of any other nation on earth."

Bryan loves his silver dogma all the more fanatically because he has to nurse it in silence. The surprise sprung on him at Ann Arbor shows how the land lies. Believing in free silver as absolutely and as ardently as ever, Bryan will stop at nothing when the opportunity comes to enforce that policy in its most extreme and reckless form.

That incident at Ann Arbor gave Chairman Jones of the Democratio National Committee the pip. All others at Democratic headquarters in this city immediately had "that tired feeling." a free ballot and a fair count to the white men

Mr. Jones talked of the situation in New York as if he had unbounded confidence that the Democrats would carry the State for Bryan. Here is the arrangement of States and votes that the Democratio National chairman indorses:

DEMOCRATIC HEADS TOGETHER. Cash and Spellbinders to Be Poured Into New

York and Indiana. CHICAGO, Oct. 21.—The Democrats, headed by Chairman James K. Jones of the National Committee, have had conferences all day long as to New York State and Indiana. The former State has thirty-six votes in the Electoral Col-lege and the latter State fifteen. Senator Jones and his friends did not wind up their conferences

until late to-night.
"Joe" Bailey of Texas and Charles A. Towns of Minnesota were among those present. It was decided to concentrate all the Democratic energies—cash, speakers and literature—on these two great States, the Empire and the Hooster, during the remaining two weeks of the

these two great States, the Empire and the Hoosier, during the remaining two weeks of the campaign.

Ex-Gov. David B. Hill of New York, while here, said that the Democrats would carry Indiana, but he added: "I have no means of getting at the facts. I have simily been making campaign speeches in the State."

It was Mr. Hill who, during the campaign of 1892, said that Mr. Cleveland would be defeated, and it was this same Mr. Hill who told his intimate friends in 1894 that he, Hill, would gurely be elected Governor of the State of New York over Levi P. Morton. Mr. Hill in that campaign was only beaten by 145,000 plurality. One of the closest friends of Bryan advises by telegraph to-night not to bet on his election, but to use the money in chipping into the Democratic campaign fund.

Senator danna said:

Yes, I know that the Bryanites are still claiming New York and Indiana and that they are to fight like old Harry for those two States. Our friends in New York are alert and so are our people in Indiana, and it is all right. I am glad that the Bryanites have decided to concentrate their battle in New York and Indiana. It will exert a fine influence upon our friends in those two great States. Bryan is defeated and the decision of the Democrats to-day to concentrate upon New York and Indiana is the last gasp. All must be alert, and all must look out for roorbacks. This is the time in the campaign when those cheerful birds hover over the situation.

Convention This Week. WILKES-BARRE, Pa., Oct. 21.- President Mitchell is expected to issue a call to-morrow for a convention of the United Mine Workers to be held toward the end of this week, and it is believed by the strikers and their leaders that the strike will then be settled. Whether it will be by the acceptance of the operators' offer, made last Thursday, or whether the convention will agree to accept an increase in which the powder question is eliminated, otherwise a plain increase of 10 per cent, it is impossible to say, and a vigorous contest over the two courses is expected in the convention. Each really amounts to the same thing, although if the operators give the plain 10 per cent, increase Democratic column. The increased trade with the Orient in steel and iron and manufactured goods, the exports of cotton, all have been gloriously received. Bryan is beaten beyond peradventure and the Republicans are to retain control of the House of Representatives and the United States Senate, but every vote that has been registered should be cast on election day. Two weeks remain of the campaign. It is the earnest declaration of the Republican campaign managers and their sound money Democratic allies that nothing should be taken for granted, but that every vote should find its way into the ballot box.

Letter From Manila Which Shows the Conditions in the Philippines.

SAN FRANCISCO, Oct. 21.-The following letter has been received in this city from Daniel R. Williams, Secretary to Prof. Bernard Moses of the Philippine Commission:

"Much interest exists here with regard to the campaigs now going on in the States. The Democrats are quite active here now. Twenty soldiers were killed the other day, being a contribution to the campaign material of the Democrats. This war would have ended long ago were it not for Bryan. He is more a leader of these people now than Aguinaldo, and every American soldier that is killed during this campaign can be laid directly to his door. They are making extra efforts now simply to make a showing to be used in the States. If Bryan is defeated the whole thing will crumble. In Mindanao there has been an armed truce between Americans and Filipinos until after election. If Bryan is elected the Filipinos expect the Americans to withdraw the next day, while if he is defeated they will surrender at once. That is the best illustration I can give of truce conditions here."

BRYAN'S DEFEAT WILLEND THE WAR. STRAUSS AT THE OPERA HOUSE. His Viennese Orchestra Heard to Better Advantage Than at the Waldorf.

Eduard Strauss and his Viennese orchestra were heard last night at the Metropolitan Opera House before an audience different from that which greeted the famous composer's brother in the less appropriate atmosphere of the Walthe campaign now going on in the States. The dorf-Astoria on the evening before, for it was large and in a measure enthusiastic. The auditorium of the opera house proved a much more advantageous place for the band's performance. The roughness of the strings and the shriliness of the wood-wind were less noticeable than in the small concert room of the hotel, and the brasses were moderated, so there hotel, and the brasses were moderated, so there was greater pleasure to be taken out of the other numbers than the dance music. This was as enloyable as it had been before, possessing the unique charm that Vienness players can impart to it more completely than anyothere. There was only one programme number last night by Johann Strauss. This was "Roses from the South" and the audience had the additional pleasure of hearing the waits from "Die Fledermaus" and the "Pizzicato Polka" played with all the engagerations of tone and tempi that delighted the audience on Saturday. The playing of the Johann Strauss waltzes was made charming by the unique qualities of the players, who are so well worth hearing that it is a pity so much uninteresting and ill-performed music must be heard with what is so rare.

The compositions of Eduard Strauss last night were the "Jubilee" walts, a polina a "Barcarolle Orientale," and the galop "Once Around. Other numbers were a scena from Mascagni's "Radcliffe," the overture to Nicolai's "The Merry Wives of Windsor" and one of Mendelsschn's "Sons Without Words" orchestrated by the conductor. hotel, and the brasses were moderated, so there
